Career Objective

Aspiring Web Developer with a strong foundation in front-end and back-end technologies, gained through a comprehensive one-year training program. Eager to contribute to dynamic teams, solve real-world problems, and continuously learn new technologies to build impactful web applications.

Experience

Web Development Trainee
WsCube Tech | June 2024 – March 2025
Jodhpur, Rajasthan

Completed a hands-on, project-based Full Stack Web Development training program. Built dynamic, responsive web applications using modern tools and frameworks. Collaborated on mini-projects simulating real-world scenarios.

Key Responsibilities & Achievements:

- Developed responsive web interfaces using **HTML5, CSS3, JavaScript**, **Bootstrap** and **Tailwind**.
- Built and deployed dynamic, single-page applications (SPAs) using **React.js** and React Router.
- Designed RESTful APIs and implemented server-side logic using **Node.js** and **Express.js**.
- Managed data storage and retrieval using **MongoDB**, applying CRUD operations and schema design.
- Practiced **version control** using **Git & GitHub**, working in collaborative coding environments.
- Optimized website performance for faster load times and better user experience.
- Completed capstone project: **E-commerce Web App** with product listings, user login, cart system, and admin dashboard.

Projects

- **Full E-commerce Website with Admin Panel** – *React.js, Node.js, Express.js, MongoDB (Mongoose)*
  Built a fully functional e-commerce platform with features like user authentication, product listing, shopping cart, and checkout. Developed a separate admin dashboard to manage products, orders, and users. Integrated secure APIs, used JWT for authentication, and managed database operations with Mongoose.

- **E-commerce Web App** – *React.js, Node.js, MongoDB*
  Built a full-stack e-commerce platform with product listing, user authentication, shopping cart, and admin product management. Integrated REST APIs and used MongoDB for backend data handling.

- **One Page Website** – *HTML, CSS, JavaScript*

Developed a clean, scroll-based single-page website with smooth navigation and responsive design. Included sections for services, about, contact form, and integrated animation on scroll (AOS library)

- **Myntra Clone** – *HTML, CSS, JavaScript, React.js*
  Created a functional frontend clone of the Myntra e-commerce platform. Designed home page, product grid, filters, and product detail view with responsiveness. Implemented reusable components using React.

- **Blinkit Clone** – *React.js, Tailwind, JavaScript*
  Developed a frontend clone of Blinkit (instant grocery delivery app) replicating home screen, product categories, and cart functionality. Focused on grid layout, responsive design, and dynamic rendering using React components.

Technical Skills

HTML5, CSS3, JavaScript, Bootstrap, Tailwind, JQuery, React.js, React Hooks, Next.js, Node.js, Express.js, MongoDB, Mongoose, MongoDB Atlas, REST APIs, Git, GitHub, Responsive Design, Web Performance Optimization, Vercel, Amazon Web Services (AWS)

Certifications

- **Full Stack Web Development Program**
  WsCube Tech – *Completed: March 2025*
  Covered front-end and back-end technologies including HTML, CSS, JavaScript, React.js, Node.js, Express.js, and MongoDB. Included real-world projects, version control with Git, and responsive design practices.

- **Diploma in Computer Applications (DCA)**
  Hartron Skill Center, Hisar – *Completed: 2023*
  Gained foundational knowledge in MS Office, computer fundamentals, internet applications, and basic programming concepts.

Education

Bachelor of Commerce (B.Com)
Choudhary Bansi Lal University, Bhiwani
Year of Completion: 2025
